The Select Range

The Select Range, formerly known as "Bedroom Selection", combines versatility with high quality and is ideal for Hotel Contracts. Our computerised machinery enables us to manufacture required quantities at most competitive prices.

The Select Range has been both ergonomically and production designed using carefully selected real wood veneers. All exposed edges are solid hardwood lipped.

The visual appearance of the Select Range is determined by the following five DESIGN FEATURES: Show Wood, Top Moulding, Beading, Plinths and Handles. Careful selection of these features will personalise the furniture to the hotel and enhance the ambiance of the bedrooms.
